DETAILED ACTION

This Office Action is in response to the Applicants' amendment submitted on 06/20/2007. In virtue of this amendment, claims 1-22 are currently presented in the instant application.

Reasons for Allowance

1. Claims 1-22 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Prior art fails to disclose or fairly suggest a method for operating a discharge lamp including two electrodes comprising applying to said electrodes an alternating current having a direct current component for compensating a temperature difference between said two electrodes, wherein said direct current component (DC) is selected such that a first one of said electrodes, which is expected to have a lower temperature than the second one of said electrodes, functions as anode for said direct current component (DC), while said second electrode functions as cathode for said direct current component (DC), in combination with the remaining claimed limitations as called for in independent claim 1 (claims 2-22 are allowed since they are dependent on claim 1).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
